**Ultra-thin PE foam tape**

**Polyolefin foam tape**

**Description:** Ultra-thin PE foam tape is Ultra-thin high density PE foam as backing, coated on both sides with strong solvent acrylic adhesive, and covered with silicone paper as release paper liner.

Thickness: 0.15mm-0.3mm

**6 Series Ultra-thin waterproof PE foam tape advantages:**

- ☆With excellent waterproof PE foam tape
- ☆Heat resistance, good machine-ability
- ☆Strong and high adhesion for big area binding materials
- ☆For ultra thin request, double sided PE foam tape with ultra thin foam backing

## **Product features of ultra thin PE foam tape:**

- ☆ Ultra-thin property, support for products ultra thin and miniaturization
- ☆ Waterproof, optimum materials in waterproof domain, reach to seven class of GB waterproof
- ☆ Anti-dust property, good anti-dust performance
- ☆ Low rebound resilience, avoid the deformation of panel and frame
- ☆ Shock absorbability, can get more than 55% shock absorption rate, excellent choice for shockproof, cushion
- ☆ Good weather resistance, good stability and high weather resistance in the severe environment.
- ☆ Flexibility, though very thin, it is very flexible and has good Compression Properties
- ☆ Die-cutting property, covered with silicone paper as release paper liner, no deformation and no shrink after the cutting.
