Waterproof foam tape

Description: waterproof foam tape is multipurpose foam that's primarily used for dissipation of vibration and to distribute stresses and forces over the entire bond line.

The adhesive on the liner side has been specifically formulated to provide an ultra-high bond especially in severe exterior applications.

Paper liner/ film liner (optional)

Solvent acrylic based & hot melt based

PE backing, coating on both side with strong solvent acrylic adhesive.

PE plastic film/yellow silicone paper/white silicone paper/Glassine silicone paper as release paper liner.

Approved RoHS certificate by SGS

Features:

Easy-tear,

Strong adhesion,

Excellent double-stick,

Heat resistance, Weather resistance,

Sounds resistance, UV resistance,

Service Temperature range from -20 °C -100 °C

No pollution Waterproof, Shockproof, Moisture proof,

Strong holding power, good adhesion to the rough complex surface

Applications:

Mounting emblems and ornamentation;

Prevents corrosion of two dissimilar materials;

Excellent quick stick made it fit for rough surface, such as nameplate, marker, glass map and so on;

Widely used for wall mount picture, decorations, fixing of auto parts. Packing electronic pieces, cushion on glass board, ceramic tile and wood surface that are clean and dry;

Aids in relieving forces caused by thermal expansion and contraction between bonded parts;

Suitable to use for the fixation of car decoration and bonding of structural components inside the electronic products;

Has 1000's of uses, it can be used on your car, home, motor home, caravan, boat, crafts;

This tape is popular for automotive use because it will provide a firm and flexible bond to plastic trims; car badges and number plates.
